Thank you for your interest in learning more about our soul's inherent design and how aligning with one's gifts creates thriving in life. Below is information about "Soul Design" and the "Soul Purpose System" that is part of my ebook and audiobook, "LightBridge, Support for Sacred Living".

What is the Soul Purpose System

Our souls came to this earthly life with a design or plan for how to enrich our evolution and expansion. The Soul Purpose System is a sacred body of work that brings awareness and specificity to one's soul purpose. Each person has a specific, individualized Soul Purpose Blueprint that highlights the gifts, talents, goals and challenges that their soul will focus upon in this life. Note that challenges are actually gifts that must be mined for the gold that they represent. Think of gifts and talents as being handed to you outright, whereas challenges are gifts in disguise.

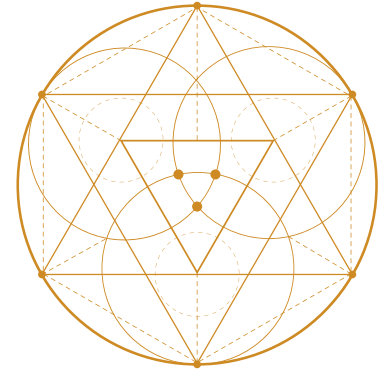

Each person's unique Soul Purpose Blueprint is based on their exact name at birth. A person's name is carefully chosen by the soul. The soul telepathically transmits the chosen name to the parents or to a close relative. It is not a coincidence. It is one of your unique identifiers, just like the time and location of your birth. In a pre-life meeting, the incarnating aspect of the soul chooses the areas to focus upon that will yield the most soul growth. We each have soul specialties that we are here to share, that only we can bring forth. We all have incredible gifts that we give to the world.

The foundation of the system lies in the fact that sound is a creative force. In fact, the universe is said to have been birthed from sound. As one's name is being voiced in the world, this activates certain codes that contain archetypal energies and themes. In order to decipher one's individual Soul Purpose Blueprint, we must look to the history of the system itself.

History of the Soul Purpose System

The Soul Purpose System is ancient. One could say it is timeless. It was alive and flourishing during Atlantean times and afterwards was brought forward into Egypt. Drawing us into the more modern area, we find ties to Europe in the 1980's. A potent Swiss channel, Dr. Frank Alper, channeled the Soul Purpose System in partnership with the soul of Moses. He received guidance about situating the creation codes of one's blueprint around the Star of Creation or the Star of David. He also provided the interpretations of the codes. As he was bringing this work forward, he was studying the Sefer Yetzirah. This book pre-dates the Bible and is known as the Book of Creation. It goes back 5,000+ years. It talks about the creation story and about how earth & matter were created. It speaks about the 22 Hebrew Fire Letters, which are the 22 letters of the Hebrew alphabet. This alphabet was an original language of light.

One's Soul Purpose Blueprint is created from deciphering the letters contained in one's name and situating them around the Star of Creation. There are 22 possible creation codes and everyone will have a combination of these codes. It is said that we each have access to all of the 22 codes, however, our soul chooses a particular focus unique to us.
